

Brand Name : Sonavet-90

Group Name : Fertilizer

Tech. Name : Sulphur 90% WDG (Element Sulphur-90%)

Water Dispersible Granule

Application :

- Sulphur helps in regulating soil pH, ensuring an optimal environment for plant growth.
- It is an essential nutrient that plays a vital role in the formation of amino acids and proteins.
- It is in the absorption of other essential nutrients by plants, promoting better nutrient uptake and utilization.
- It is known to activate enzymes responsible for increasing the oil and protein content in oilseeds and pulses.
- It contributes to improved soil health by addressing sulphur deficiencies and converting insoluble salts.

Crops : Cereal Crops: Rice, Bajra, Wheat, Maize, Oats, Barley, Rye, Millets, Sorghum, etc.
